

# Checkbook with a brain

Never make another checkbook error with America's first computerized banking center in a case.

The new Corvus CheckMaster is a checkbook holder with a built-in computer—a time-saving device that will keep you in perfect balance for every check you write, every day of the year.

## YOUR BANK WILL LOVE YOU

If you're like most Americans, your checkbook is a disaster area. And your electronic calculator isn't helping much.

Now, there's a great new space-age product called the Corvus CheckMaster designed specifically to keep you in perfect balance, for every check you write, every day of the year. And it's actually easier to use than a calculator.

## HERE'S HOW IT WORKS

Open your checkbook holder and turn on the built-in computer. Press the "Balance" key, and your bank balance is recalled on the display. The CheckMaster memory is so powerful that it never forgets your balance—even months after you last recall it.

Enter the amount of your check, and press the "Check" key. The check amount is automatically deducted from your balance, and your new balance is displayed—and all with just one key stroke.

Or enter the amount of a deposit, and press the "Deposit" key. Your deposit is automatically added to your balance, and again, your new balance is displayed.

## MANY EXTRA FEATURES

The Corvus CheckMaster does so much, so easily, and it's great fun to use. Here are seven reasons why:

**1. Easily corrects mistakes** If you enter the wrong digits, press the "Clear" key. Only your mistake will be cleared—never the balance.

**2. Worry-free decimal** Just enter the digits. The unit's dollar-position decimal always keeps the decimal point where it belongs.

**3. Low battery signal** The unit's penlight batteries will last one year with average use. A low battery signal on the display will indicate when it's time to replace them.

**4. Overdraft alert** CheckMaster will signal an overdrawn account plus show the overdraft amount and help you avoid the embarrassment of having a check accidentally bounce.

**5. Safety switch** If you forget to turn off your computer, don't worry. Whenever you close your case, your unit shuts off automatically.

**6. Private viewing angle** Don't worry about anyone seeing your balance. The red display can only be viewed by the user and registers up to \$9,999.99 or any six digits.

**7. Perfect size** The CheckMaster's handsome tan and cream-colored case measures 7/8" x 3 5/8" x 6 3/4" and weighs only 8 ounces.

To find out your exact balance, even months after you've last recalled it, simply open your case and press the balance key. CheckMaster's memory never forgets. Designed for both men and women, CheckMaster holds any standard-sized personal checks, check register, credit cards and important papers.

## RUGGED AND SHOCKPROOF

Drop it, sit on it, drop it again—CheckMaster's shock-proof case will withstand plenty of abuse. The integrated circuit is hermetically sealed for a lifetime of trouble-free service. A spot of gold is even used in the circuit's final sealing process to insure CheckMaster's very high level of reliability.

## CONTROL YOUR PURCHASES

Take CheckMaster with you to the supermarket. Set a dollar limit on what you intend to buy. Then enter each item you purchase as if you were writing a check. When your balance reaches your limit, stop buying and head for the check-out counter. It's a great way to control your budget and prevent overcharging by the check-out clerk.

## THE PERFECT GIFT

CheckMaster makes the ideal gift for your wife, husband, friend or anybody who has a personal checking account. Even a person who already owns a calculator will appreciate CheckMaster's value and convenience.

\$39.95 NATIONAL INTRODUCTORY PRICE

The CheckMaster is perfect insurance against bounced checks, overdrafts, arithmetic errors and bank errors. Its powerful memory, simple operation, and many extra features make it another example of how space-age technology has made fun out of one of the most time-consuming household tasks.

## MORE THAN GUARANTEED

The Corvus CheckMaster will make such an improvement in helping you balance your checkbook that we make the following unusual money-back guarantee: use the CheckMaster until your next bank statement arrives or for one full month. If the CheckMaster does not balance your checkbook perfectly and actually pay for itself in either convenience or actual savings, return it for a prompt and courteous refund. You can't lose.

## A NATIONAL INTRODUCTORY PRICE

The American-made CheckMaster is manufactured by Corvus, a wholly-owned subsidiary of Mostek Corporation and a leading consumer electronics manufacturer. Mostek was the first company to manufacture the integrated circuit—the heart of today's pocket calculator. JS&A is the world's largest single source of electronic calculators, digital watches and other space-age products. We have purchased the entire initial CheckMaster production to sell exclusively through the mail for only \$39.95 during its national introduction.

## HOW TO ORDER

Credit card buyers may order by calling our national toll-free number or any of the local numbers listed below. Or you may send your check or money order for \$42.45 per unit (\$39.95 plus \$2.50 postage, insurance and handling—Illinois residents add 5% sales tax) to the address shown below. But act quickly! See for yourself how easy it is to keep your checkbook in perfect balance every day of the year. Order your CheckMaster at no obligation today.
